

SAM34CXI

34L FREESTANDING INVERTER MICROWAVE WITH CONVECTION

EAN 8017709237417

Dimensions	519mmW x 507mmD x 314mmH	
Finish	Stainless steel	
Display	Digital LED display	
Capacity	34L	
Cavity Type	Stainless steel	
Turntable	314mm	
Power levels	5	
Microwave power	1000W Inverter	
Grill Power	1100W	
Convection Power	2400W	
Auto cook functions	10	
Other Functions	Pizza Meat Vegetables Pasta Cake	Potato Fish Beverage Popcorn Chicken
Defrost	By time or weight	
Lighting	1 x LED	
Control panel	Electronic button, dial	
Supplied Accessories	Glass Turntable	
Safety	Thermal protection Child safety lock	
Power	220-240V, 50Hz 2400W 10A 3 pin plug	
Warranty	Two years parts and labour	

INVERTER TECHNOLOGY

The addition of Inverter technology allows for cooking, reheating and defrosting at different power levels. Traditional microwave ovens only operate at full power, regardless of the power percentage selected. With inverter technology, the power level selected is the power level achieved. This level of control results in more even cooking and reheating and defrosting without cooked edges. You can also keep food warm, simmer and slow cook with impressive results.
