

LIEBHERR

SmartSteel: With SmartSteel used on the appliance door the visibility of fingerprints is reduced, making it very easy to clean. Maintain this beautiful door exterior simply with a wipe of a clean, dry or damp cloth.

Touch control system: Our intuitive electronic touch control panel ensures all functions are easy and convenient to use as well as guarantees that the settings selected remain accurate and constant.

SuperCool & SuperFrost: The automatic SuperCool & SuperFrost reduce the temperatures to +2°C and 32°C respectively to assist with rapid cooling and freezing and reduce the likelihood that existing items will suffer from excessive temperature rise while the door is left open for loading or temperature transfer from added warmer items.

Liebherr's SmartSteel **SBSef 7242** freestanding side by side features SoftTouch MagicEye controls with LCD, LED lighting, plus SuperCool and SuperFrost functions (to chill or freeze quickly).

With an aluminium handle complete with integrated opening device, the door will always open with ease, even if recently closed. With 8 transparent freezer drawers there is ample space for those who like to buy in bulk.

No Frost	Smart Steel
