

10kg 9000 series AutoDose front load washing machine with 1600rpm spin speed. Wi-Fi connected using the AEG Home smart device app. Featuring AutoDose technology, OKOMix, ProSense, ProSteam and Woolmark Green accreditation.

RRP AUS \$2,799.00

Product Details

FEATURES

AutoDose system
AutoDose and intelligent sensors calculate the precise amount of detergent and softener required and dispense it automatically.

Ultra quick program
Washes 3kg in just 20 minutes

OKOPower
Superior cleaning results at lower temperatures in just 59 minutes.

5 Energy star rating

Anti-allergy program

PlusSteam
Complete a wash cycle with steam to reduce wrinkles, saving time and reduce the need for ironing.

Time Save
Reduces your washing time up to 50% on certain programs for smaller loads saving you energy and time.

XXL Door
The new XXL glass door has a larger opening, which makes loading and unloading laundry seamless.

Silk and wool program

10kg wash capacity for large washes

OKOInverter Motor
Similar to professional machines, the OKOInverter brushless inverter motor is quieter and can extend the working life of the motor whilst using less energy.

Aqua Control System
Automatically shuts off the water inlet if a leak is detected in the hose.

BENEFITS

Precise detergent dosage. Precision care
AutoDose system with intelligent sensors calculate and dispense the precise amount of detergent and softener needed, protecting your clothes from early aging that can be caused by overdosing or under dosing.

Every fibre cleaned and protected
Advanced OKOMix technology blends detergents and then softeners with water before they enter the drum. This ensures that every fibre is cleaned and cared for with the right mix of detergent, even for shorter cycles. Every thread, every stitch, every fibre, expertly protected.

Caring for clothes, saving water and energy

ProSense technology intelligent sensors optimises and displays the estimated wash time within 30 seconds of starting the wash cycle. Whether it is a few shirts or your entire weekly laundry, the wash time, water and energy consumption adjust to ensure they are only washed for the exact amount of time required. This ensures that fabrics suffer less wear and tear, maintaining colour and texture.

Keeps your clothes looking and feeling impeccable

The steam refresh program enables you to refresh your garments without washing with detergent and water. This ensures less wear and tear on fibres so they can maintain their look and textures for longer.

The gentle way to care for wool

The Woolmark Green certification in washing will treat each item in the gentlest possible manner, meaning you can safely wash all of your hand wash only woollen garments.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Front Loader Type	Front Loader
Capacity (Kg)	10
Frontloader Wash system	Advanced Wash Technology,OKOMix,AutoDose

ENERGY FOR WASHING

Energy Star Rating	5
Energy Consumption Warm (KWhr/yr)	.
