## FEATURES & BENEFITS

### Complementary design

&lt;&gt;

### Precise control

Precise temperature control at both low and high temperatures. Different burner sizes fit a variety of pots to complement different cooking styles.

### Easy cleaning

Cleaning and care of these cooktops is easy with sealed burners and a single sheet cooking surface. After each use, simply remove the trivets and wipe down the glass.

### Quality materials

With cast iron trivets, anodized metal dials and tough ceramic glass that can withstand high temperatures, we use only the highest quality materials for optimal performance.

### SAFE & SOUND

The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

### Quality materials

Our cooktops are built from recyclable, eco-friendly ceramic glass - without using arsenic or heavy metals in the manufacturing process. The glass edges are chip-tested for resistance to damage from pots and pans, ensuring lasting quality.
