|--------------------------|---|
| MODEL | DE8060P2 |
| Capacity | 8.0kg |
| Dimensions | H850 x W600 x D645mm |
| FEATURES | BENEFITS |
| Perfect Pair | This Fisher & Paykel dryer makes a perfect pair with the WashSmart™ Front Loader. This 8kg dryer is perfect for drying large loads quickly and efficiently. The condensing technology means no venting is required, making this an ideal product for apartments or in fact any installation where expensive venting is difficult. |
| SmartTouch™ Control Dial | The SmartTouch™ Control Dial gives finger tip control access to 11 pre-programmed cycles including Everyday, Heavy, Delicate, Easy Iron, Sheets, Rack Dry, Freshen up, Air Dry, and 3 Time dry cycles. Options include 5 dryness levels, 4 temperature settings and wrinkle free. |
| Healthier Drying | Condensing technology means that moisture is collected instead of vented out meaning less allergens and moisture going into the home. This dryer is the right choice for people with asthma or other respiratory illnesses. |
| Easy Installation | No venting required, although a hose is provided should you want to drain moisture from the tank into your washer standpipe. |
| Auto-sensing | Auto-sensing automatically senses the moisture levels inside the drum, shutting off at the perfect level so your clothes don't over dry. |
| Drum Light | An internal drum light ensures you can see that last sock. |
| Drying Rack | A drying rack for drying shoes, jerseys or hats is provided. |
| Excellent Credentials | 2 Star Energy Rating. |
