Key Features & Benefits

MORE FREEZER SPACE

Class leading and innovative freezer design allows for better, more spacious storage.

PRIME FREEZE

The **Prime Freeze** drawer features an aluminium tray which absorbs cold air and a dedicated duct and fan to quickly deliver a large flow of cold air to quickly cool food. There are three key modes available, Rapid Freezing, Quick Cooling and Cool Down.

- **Rapid Freezing** freezes food 5 times*¹ faster than a standard freezer, reducing cell damage and locking in flavor, nutrients, and texture.
- **Quick Cooling** get food and drinks cold quicker and set desserts much faster.
- **Cool Down** function removes residual heat from soups and sauces as well as baby food, so it is ready to serve.

PRIME FRESH

- The temperature control in the **Prime Fresh** drawer softly freezes raw meat & fish at approx. -3°C, helping lock in nutrients while making meal preparation effortless as cutting or separating softly frozen food is easy.

- **Prime Fresh** drawer features an adjustable temperature control giving your more flexibility to ensure optimal storage. Temperature can be adjusted by 1°C interval from -5°C to 4°C.

FRESH SAFE

Keep fruit and veggies fresher for longer with **Fresh Safe** drawer which maintains ideal humidity with an automatic moisture control filter and airtight seal structure. The filter removes excess moisture when humidity is high and preventing dryness by sealing in damp air when humidity is low for optimum storage of vegetables.

nanoeTM X

nanoeTM X technology releases nano-size water particles that circulate throughout the fridge to ensure both air and surface remain safe and hygienic. It actively inhibits up to 99.99%*² bacteria and reduces smells by deodorising the air for a fresher, and cleaner storage.

*¹ Data prepared by Panasonic.

*² Testing organisation: Kitasato Research Centre for Environmental Science (general incorporated foundation). KRCS—Bio. Test Report No. 2017_0188.

Model Number:	NR-CW530HVKA		Warranty
Dimensions: (H x W x D)	1730mm x 750mm x 750mm	Net Weight: 82kg	2 years parts and labour
Rated Capacity:	Fridge 314L Freezer 186L Total 500L	Energy Rating 4.5 Star	10 years inverter compressor
Barcode:	8887549815539	Available: June 2022	(2 years parts and labour + 8 years parts only)
