GOOD DESIGN

2017 Good Design Award Winner

PRODUCT HIGHLIGHTS

700W MOTOR

Powerful 700W motor enables fast and easy blending of a variety of foods as well as exceptional blending, pureeing, emulsifying, chopping, and whisking.

FLOWBLEND SYSTEM

Combination of single multi-purpose stainless steel blade with unique dome shape casing with ingenious curved cutouts to prevent suction and ensure all ingredients are drawn to the blade for efficient, even blending.

FAST AND VERSATILE

A wide variety of food preparation tasks can be completed quickly and easily utilising the Flowblend system, chopper and whisk attachments.

VARIABLE SPEED CONTROL WITH TURBO

Top mounted adjustable speed control which the user dials up to down to smoothly increase or decrease between the four speeds. Activate turbo for additional power when required.

INNOVATIVE DESIGN

Ergonomic handle with non-slip grip and dial speed control. Add, remove and change attachments with ease. Clever and convenient features include interchangeable chopper non-slip base and storage lid.
