

NN-ST66QB

32L 1100W Microwave Oven – Sleek Black Glass

KEY FEATURES & BENEFITS

LARGE TURNTABLE – MORE COOKING SPACE

The Panasonic 32L Microwave comes with a large **340mm turntable**, giving you more room for bigger plates and containers. While litre capacity matters, it's the turntable size that really decides what fits inside.

INVERTER TECHNOLOGY

Panasonic's Inverter Microwave Technology provides graduated power control allowing to deliver more evenly cooked food, preserving texture and flavour, and preventing spill over and burnt edges.

GENIUS SENSOR REHEAT & COOKING

Genius Sensor Reheat & Cooking takes the guesswork out of mealtimes. Simply choose the food category and weight, and the pre-programmed menus will automatically adjust the cooking time and power. The built-in sensor detects steam and humidity from your food to ensure it's perfectly cooked or reheated - no need to set time or power.

SPECIFICATIONS

Capacity	32L
