

Advance information for Projects specifications – DA 2390

Design	Extractor unit
Operating modes	Vented or Recirculation
User convenience	Light-touch switches with LED 2 x stainless steel grease filters Interior CleanCover
European efficiency ratings	Energy efficiency class “A” Grease filter efficiency class “B”
Lighting	4 x 3 W LED
Max. air throughput capacity	Vented: 600 m ³ /h Recirculation: 500 m ³ /h
Width x Height x Depth of canopy in mm	884 x 63 x 297
Total rated load	226 W
Voltage	230 V
Fuse rating	10 A
Vent connection	Top or Rear
Diameter of vent connection	150 mm
Standard accessories	Non-return baffle
Optional accessories	DUU 151 recirculation conversion kit DKF 19-1 Active charcoal filter DASD 150 silencer DMK 150 wall vent kit
