

DH9060P1

Heat Pump Condensing Dryer, 9kg

This Fisher & Paykel 9kg condensing dryer uses efficient heat pump technology to dry your clothes at lower temperatures for better clothes care.

White

Dimensions

Depth	670mm
Height	850mm
Width	600mm

Features & Benefits

13 fabric care cycles

Select the right cycle for any fabric type from the most precious and delicate to those heavier essential items.

Heat pump technology

Heat pump technology dries at lower temperatures for gentle fabric care and because moisture is condensed, no venting is required. This is an ideal dryer for laundries where venting is difficult as it can be placed almost anywhere in the home.

Too precious to tumble?

The drying rack is designed for items that can't be tumble dried. It fits easily into the dryer and delivers the perfect result for those precious delicates, shoes and toys.

Sports cycle

The low heat Sports cycle is perfect for whatever the game throws at you, and ensures that your gear is ready for the next one.

Bulky cycle

Longer periods of cooling in between heat evenly dries large items like doonas and ski jackets.

Designed to match

The Heat Pump dryer and our WH1060P1 or WH1260P1 washing machines are designed to match. With outstanding aesthetics and complimentary wash and dry cycles, they are the perfect pair to deliver complete fabric care.
