Height	898 - 946mm
Width	897mm

Features & Benefits

Multi-shelf cooking

Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfect as food cooking on the bottom shelf.

Quality and durability

Every detail has been carefully crafted. The solid, perfectly balanced soft-close door and durable cooktop trivets all add up to an exceptional, premium range.

Burner power & control

Instant and immediate control from the highest to the gentlest heat. The finely tuned cooktop controls let you sear, stir fry or simmer a delicate sauce to perfection.

Large capacity oven

The generous 140L total capacity oven gives you plenty of space to cook multiple dishes at once.

Easy to clean

Your cooktop simply needs a quick wipe to keep it looking good as new for years to come, as the gas cooktop is made from a single piece of stainless steel that contains spills. The oven door, its inner pane of glass and runners can also be removed for easy cleaning.

Even heat

Accurate, electronically-controlled oven heat ensures a great result every time.
