Depth	**565 mm**

FEATURES & BENEFITS

Wash, rinse, ready in 29 minutes

Ultra Speed washes a 3kg load in just 29 minutes to fit busy routines. The Speed Up function shortens most cycles for lightly soiled clothes, while Delay Start lets you time your wash to finish when you get home.

Designed for real homes

With a generous 9.5kg capacity, this washer has plenty of room for family-sized loads. Its slimline design fits neatly into existing cabinetry, while a choice of Dark or White finishes gives you flexibility to match your space. With a 5-star energy and 4.5-star water rating, it's efficient, capable, and made for everyday living.

Refresh and renew with steam

Keep clothes and linens smooth and fresh with the convenient Refresh cycle. Perfect for lightly worn garments or stored items, it uses steam to help gently reduce odours and creases while using minimal water and energy.

Flexible cycles for every day

With 14 wash cycles, there's an option for every kind of load, from everyday items to delicates. A Woolmark Black certified cycle cares for machine-washable woollens, while Add a Garment lets you pause mid-cycle to add in anything you've missed.

Care for your machine

Anti-Bacteria Treatment (ABT) in the door gasket helps keep your laundry environment hygienic. The Drum Clean cycle uses hot water and high-speed spinning to help remove detergent residue and keep your washer fresh.

The world's #1 home appliance brand*

Haier is the world's number one Major Appliance brand*, and has been for 16 years running. With our global network, trusted technology and local expertise, Haier is a name you can rely on. *Source: Euromonitor International Limited; Consumer Appliances 2025ed, % unit share, 2024 volume sales data. Major Appliances category is the sum of dishwashers, home laundry appliances, large cooking appliances, microwaves and refrigeration appliances. Volume sales refer to sales in retail and construction channels.
