

NR-BY55BPSAU

Panasonic 551 Litre Bottom Mount with New Flat Door Design
in a Stainless Colour Finish

NR-BY55BPSAU

Key Features & Benefits

- **ECONAVI Technology**

Intelligent Eco sensors detect consumer usage conditions, optimising performance. Includes 4 sensors; Door, Lighting, Room Temperature and Internal Temperature. Monitors a families usage of the refrigerator across a 3 week period, thereby optimising performance and reducing energy consumption by up to 40%.

- **INVERTER – Comprises 2 components**

- **Intelligent Sensing**

A microcomputer cleverly detects the temperature inside the refrigerator. Each time the temperature changes due to the door opening and closing or the amount of food stored, that information is precisely transmitted to the compressor.

- **Intelligent Adjustment**

Based on the information received, the compressor adjusts rotation speed to suit the situation. The result is more efficient, powerful cooling to maintain a stable temperature inside the refrigerator.

- **3.5 STAR ENERGY RATING**

- **FRESH SAFE**

The moisture retaining vegetable case stores vegetables and fruits in optimum conditions, by maintaining high humidity and a constant temperature, keeping them fresher for longer.

- **Ag CLEAN**

Ag Clean eliminates Bacteria and Odours.

- **Anti Bacterial**

Silver has a powerful anti-bacterial effect, inactivating 99% of mold and bacteria inside the refrigerator.

- **Deodorising**

An active enzyme effectively prevents unpleasant smells from items like fish and strong cheese.

- **SURROUND COOLING**

Chilled air from the rear panel is blown upwards and to the sides to surround stored items for gentle & even cooling.

- **WARRANTY**

- 2 year parts and labor

- 10 year inverter compressor

(2 year parts and labor + 8 year parts only)

Model Number: NR-BY55BPSAU

Availability: October 2016

Dimensions (H x W x D): 1714mm x 775mm x 741mm

Weight: 88kg

Capacity: Fridge 398L, Freezer 153L, Total 551L

Barcode: 8887549636936
