

# PV164CN2AU

60CM LINEA GAS COOKTOP, ULTRA LOW PROFILE

MADE IN ITALY

Since 1948

## DIRECT FLAME TECHNOLOGY

The very latest Smeg cooktops feature "Direct" flame high performance burners. The "Direct" flame concentrates the available energy, increasing both the efficiency and concentration of heat transferred to the pot.

## SPACE-SAVING DESIGN

When space is not restrictive, this wide hob offers multiple burners ergonomically positioned for maximum benefit, with the possibility of several styles of cooking at the one time.

## FLAME FAILURE DEVICE

Safety fitted to all burners, the Flame Failure Device ensures that should a flame be extinguished accidentally, the gas supply to the specific burner is stopped. The burner can only then be reignited by following normal ignition procedure.

## CAST-IRON PAN STANDS

The solid cast-iron pan stands cover the burner, creating a harmonious and ergonomic surface onto which pots can be placed and moved safely and securely. In addition to providing a highly professional look, these ensure excellent performance, which remains unaffected over time.

## ELECTRONIC IGNITION

Comfortably reignite the flame with automatic electronic ignition technology. Simply turn the dial during the ignition process for precise control of heat distribution that is both safe and convenient.
