## Integrated Column Freezer 610mm, Left hinge

### Integrated

This Fisher & Paykel Integrated Column Freezer is left hinge with a stainless steel interior and comes with an ice maker. It can be installed separately or together with different sized Integrated Column Refrigeration for true design freedom. Variable Temperature Zone allows two separate zones with a choice of three food modes.

### Stainless steel interior

## Dimensions

Depth	610mm
Height	2134mm
Width	603mm

## Features & Benefits

### Mix & match

Integrated Column Refrigeration gives you the freedom to mix and match. Different sized Column Fridges and Freezers can be installed separately or paired. Finish them with our stainless steel door panels or customise to match your own kitchen cabinetry.

### Perfect fit

These models fit flush and have only 3mm gaps around them with no visible hinges or grilles. Our Integrated Column models can be seamlessly hidden behind your cabinetry or you can purchase our stainless steel door panel.

### Clever energy

Our ActiveSmart™ Foodcare Fridge Freezers adapt to daily use by cooling and defrosting only when needed. This means your fridge uses the energy it needs without compromising on food care.

### Beautiful lighting

Bright LEDs light up each ceiling, shelves, bins and tray in both fridge and freezer, making it easy to find your food and creating a welcoming glow in your kitchen for those midnight snacks.

### Design quality

The premium design and quality finish includes a steel interior lining as well as soft-close, full extension metal shelf runners for easy access and robust glass shelving.

### Easy install

Integrated Column Refrigerators and Freezers have been developed to make their installation easy. The joiner kit is included when pairing fridge and freezers. All models come with front adjustable levelling feet and they've been designed to easily slide into place as separate units.
