

RF605QDUVB1

Quad Door Fridge Freezer, 905mm, 605L, Ice & Water

—
Contemporary

Three independent compartments offer true storage flexibility. Features a Variable Temperature Zone in the bottom right compartment, brilliant LED lighting and a contemporary stainless steel design.

Black stainless steel

Dimensions

Depth	688mm
Height	1790mm
Width	905mm

Features & Benefits

Fridge Mode

Fridge Mode is the best option for storing everyday items. It's perfect for short-term storage of items such as fruit and vegetables, dairy-products, meats, preserves and drinks. 0 to 6° C

Freezer Mode

Freezer Mode is suitable for everyday frozen foods requiring storage for 1 to 12 months - meat, poultry, seafood, precooked foods, frozen fruits, vegetables and ice cream. -21 to -14° C

Chill Mode

Chill Mode sets the temperature as close to freezing as possible to retain freshness in highly perishable seafood and meats, and for storing alcoholic drinks - perfect for entertaining. -1.5 to 0° C

Soft-Freeze Mode

Soft Freeze Mode is for food that requires a gentle freeze and quick thawing, allowing you to heat, cook or serve straight from the compartment, without waiting for food to thaw. -8 to -6° C

Flexible storage

Three large, independent compartments provide ample storage space. Easily adjustable cantilevered shelving in the fridge and full extension bins in the freezer provide maximum storage flexibility. A Variable Temperature Zone in the lower right compartment provides true freezer temperature of -18°C.

ActiveSmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It is technology which understands how you use your fridge and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

Ultra slim water dispenser

The slimline water dispenser is easy to use. The angled water delivery means that almost any size or shape of vessel can be filled. The slimline design maximises storage space inside the door.

Ice maker

The internal ice maker delivers fresh ice to a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times boost ice production by up to 30%

Design quality

Our refrigerators are built using quality materials. We use real stainless steel, and solid glass for the interior shelving. Thoughtfully designed bins feature smooth, fully extendable telescopic runners for full access to storage space.

The Beauty of Choice

With the choice of stylish stainless steel or elegant black, you can choose the finish that complements your kitchen design best.
