BENEFITS

AirFry for that perfect, healthy crunch
When a food craving hits, make healthier and delicious food right in your oven. Deliver all the flavour and none of the guilt. AirFry allows you to make healthier, tasty meals for the entire family right in your oven.

Tastier baking starts with steam
Take your baking to the next level with our Easy Bake + Steam function. Steam helps you get a better rise, crispier crust, a fluffier centre and tastier textures for all your bread, pastries, cakes, and puddings.

Ovens that clean up after themselves
Even cleaning up is easier with Westinghouse. Choose a PyroClean oven and with the press of a button you can keep your oven shiny and clean. The oven turns on to an extremely high temperature, turning grease and grime into ash. All you need to do is simply wipe the residue away. No nasty chemicals, no greasy mess just a sparkling clean oven with minimal effort.

Twin fan system for even cooking
Cook each dish to perfection with the Twin Fan System. Fans rotate in opposite directions, distributing heat evenly throughout the oven, so you enjoy great results every time.

Just a touch for total control
Simple to operate with a sleek design, our full-touch electric control panel with a fully programmable timer ticks all the right boxes. With just a touch or two on the easy clean surface you'll have total control over your cooking temperatures, times and functions.

Cooler to touch oven doors
Beautifully designed with Australian families in mind, the multi-layer glazing of our oven doors are cooler to the touch when the oven is hot.

Built in Australia
Westinghouse, has been the heart of the home for generations and the kitchen appliance brand we have always known and trusted to build reliable products. This oven is built in a local factory in Adelaide.
