Dimensions

Depth	571mm
Height	825mm
Width	600mm

Features & Benefits

Auto-sensing technology

Auto-sensing prevents over-drying by sensing moisture levels inside the drum and shutting off automatically. This helps clothes last for longer and reduces energy consumption.

Cares for clothes

This dryer has a cycle to suit every type of load including Delicate, Heavy and Freshen. Select a cycle with the easy to use SmartTouch™ controls.

Simple installation

Vent out either the front or the back of this dryer. A wall mounting kit is included and the control panel can be inverted easily.

Drying rack

This model comes with a drying rack, perfect for those items that are too precious to tumble.

Reverse tumbling

Reverse tumbling alternates direction to help garments move freely so they dry quicker and more evenly.

Easy loading

The robust dryer door features die cast metal hinges that open to a full 180° for easy access and loading.
